

SUMEET AHMED HASHMI

Lahore, Pakistan | +92 304 1444454 | Sumeethashmi@gmail.com | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Frontend Engineer with 4+ years of experience building high-performance, responsive web applications using React.js, Next.js, and TypeScript. Proven track record of independently delivering end-to-end web products from requirements gathering to deployment. Experienced in integrating AI-driven solutions, advanced animations with GSAP, and automation tools (Zapier, Make.com). Skilled in Figma-to-code implementation, CI/CD workflows, and modern CMS tools (Strapi, Contentful). Adept at collaborating with cross-functional teams and clients to ship scalable, maintainable code.

TECHNICAL SKILLS

Languages & Markup: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, React Redux, Zustand, GSAP, Bootstrap, Tailwind CSS, Material UI, Shadcn/UI

Tools & Platforms: Cursor AI, Claude Code, Git, GitHub, Jira, Vercel, AWS (S3, EC2 basics), Zapier, Make.com, RESTful APIs

CMS & Integrations: Strapi, Wordpress, Contentful

Design & Testing: Figma (design-to-code), SEO Optimization, Performance Optimization

Methodologies: Agile/Scrum, CI/CD, Component-Driven Development

Languages: English (Professional), Urdu (Native)

PROFESSIONAL EXPERIENCE

Frontend Engineer | Visiata Systems International

Claymont, Delaware | April 2024 – Present

- Independently build end-to-end web products from client requirements through deployment on Vercel and live production URLs.
- Develop reusable React.js and Next.js component libraries using, integrating GSAP animations for interactive and engaging user experiences.
- Implement Figma-to-code pixel-perfect UIs with full web accessibility compliance and SEO optimization best practices.
- Conduct R&D on AI-driven solutions and automation tools leveraging latest AI technologies (Cursor AI, Claude Code) to enhance product functionality.
- Collaborate remotely with international clients and cross-functional teams, owning project delivery and managing requirements end-to-end.
- Write clean, scalable, and maintainable code with CI/CD workflows on GitHub, optimizing both client-side rendering and backend API integration.
- Integrated CMS tools (Strapi, Contentful) and third-party services into production applications.

React JS Developer | Absolute Solutions

Riyadh, Central | Feb 2023 – March 2024

- Developed responsive, high-performance UIs using React.js, Next.js, Tailwind CSS, Material UI, and Bootstrap; translated Figma designs to pixel-perfect code.
- Collaborated with designers and backend engineers to deliver intuitive, visually appealing, and user-focused interfaces.
- Integrated frontend components with RESTful APIs ensuring smooth data flow, while maintaining clean, scalable, and reusable code using Git.
- Implemented Zustand and React Redux for state management across complex application workflows.
- Stayed current with frontend trends performance optimization techniques, applying best practices across all projects.

React JS Developer | Global Software Consulting

Lahore, Pakistan | May 2022 – Jan 2023

- Developed and maintained user-facing features using React.js with a focus on performance, scalability, and reusability.
- Built reusable component libraries and translated UI/UX designs (Figma) into responsive, pixel-perfect, high-quality code.
- Integrated APIs with conditional rendering and implemented front-end architecture to support complex application workflows.
- Debugged application issues, implemented hotfixes, and improved front-end performance through proactive monitoring.
- Documented codebase changes and contributed to CI/CD pipeline improvements and team development workflows.

KEY PROJECTS

Mapped City — mappedcity.com

A travel discovery platform that curates local favorites and hidden gems in cities. Built with Next.js, Tailwind CSS, and integrated with mapping APIs for seamless location discovery.

Podpress — podpress.so

PodPress is an AI-powered tool that automatically converts podcast episodes into ready-to-send newsletters in minutes. Users simply connect a podcast RSS feed, upload an MP3, or paste a YouTube link — and PodPress generates polished, formatted newsletter content with no manual editing required.

Linkwave — linkwave-frontend.vercel.app

A personalized link-sharing platform with a built-in AI assistant (powered by LLM APIs) that analyzes social media content to auto-generate engaging bios and captions, supporting profile customization and seamless sharing.

Pedlar — dev.pedlar.store

An e-commerce platform enabling creators and influencers to build personalized digital storefronts, integrated with partner brand APIs for product showcasing and selling.

EDUCATION

BS Software Engineering | University of Gujrat Sub Campus Lahore | 2017 – 2021

F.Sc Pre-Engineering | Govt. Islamia College Civil Lines Lahore | 2015 – 2017
